- Convene discussions about areas for future growth and development, as well as advocacy for policy change

### Support elements

**DSA’s brand essence: City Makers**

In early 2015, DSA underwent a branding review process. The theme of “City Makers” was developed, and adopted by the DSA Board in October 2015. This is informing a rebrand of the organization.

**Economic indicators of downtown’s health and vibrancy: Live • Work • Shop • Play**

These indicators provide a broad metric of downtown’s economic health and vitality that can be tracked over time. These indicators track number of workers, residents and sales downtown.

**DSA’s leadership approach: Partner • Catalyst • Steward**

During the branding process, these emerged as the defining characteristics of DSA and its work.

**Downtown’s fundamental assets:**

- Stunning natural setting
- Platform for innovation
- Superregional center
- Arts & history

These have been identified as some of downtown Seattle’s competitive advantages.

**Our vision for downtown**

DSA envisions downtown Seattle as everybody’s neighborhood — a global and growing 24/7 center for businesses, residents and visitors that is vibrant, welcoming, clean and safe.

It is easy to get to and through, and is the region’s center of innovation and culture.

Downtown is a collection of unique neighborhoods – each maintaining its own authentic character, leadership, and sense of community, and together creating an active and diverse urban environment with something for everyone.
